Subject: enough already

The legal system in this country is becoming a joke. Justice delayed is justice denied. Careful consideration of all angles does not lead to a better decision when the time it takes to accomplish this is out of proportion to the decision. US government resources, state government resources and private company resources are being ground up and digested by the legal system while the environment that triggered the initial questions has turned over and reinvented itself several times. For God's sake and the good of the country, make a decision so we can get on with our collective enterprises.
